Goal

I am seeking a software engineering position with a focus on application development. I want to improve my skills in a professional work environment while gaining vital work experience.

EDUCATION

Tarleton State University • August 2019 – December 2021

Bachelor of Science, Information Systems • 3.6 GPA

Texas State Technical College • August 2016 – December 2017

Associate of Applied Science, Computer Programming Technology • 3.5 GPA

RELEVANT PROJECTS

Monsters

- Collaborated with a team to develop a system to move around different screens of an application.
- I coded the writing and reading to file functions, which saved the state of the project, and also pulled data each time the program started.

Address Book

- Created a database program where you can view, add, update, delete, search, and print records from an address book. I used C# and the .net framework to create this desktop app.

Cuckoo

- Designed, developed, and published a casual mobile game using C# and Unity on Google Play.
- The game has a beautiful design and a pleasant soundtrack. The purpose of the game is to score as many points as possible.

WORK EXPERIENCE

Versalift: 7601 Imperial Dr, Waco, TX 76712

Data Collection and Analysis • April 2019 - May 2020

- Collected time studies data for each job. The data was imputed into a spreadsheet to be analyzed.
- Presented the data to managers and leads, looked for ways to optimize production.

SKILLS & KEY STRENGTHS
